

# Personvern

The Infotjenester Group consists of the companies [Infotjenester AS](#), [Capitech AS](#), [Tholin & Larsson AB](#) and [Netcompetence AB](#), hereafter named as **Simplyer**. These pages describe how Simplyer handles privacy in its solutions.

## The privacy of the employees is important

Simplyer creates systems that ensure personal data is never compromised.

- **Limited access** : Simplyer can not gain access to customer data or documents without the customers's administrator granting access (time-limited access). Learn more about the [processing of personal information in Simplyer](#) .
- **No mix** : Simplyer always ensures that your data is stored separately from shared customer services, and separate from other customers. Learn more about our [Data Security](#).
- **Data portability** : Customer data belongs to the customer. Customers can delete or export their data at any time. Learn more about our [information security and data portability](#).
- **Adaptation to new General Data Protection Regulation (GDPR)** : Simplyer already meets most of the requirements under the new regulation, and it will meet all requirements before may 2018. [Read more about this and the measures we take before the regulation enters into force](#).
